# Webasto ChargeConnect Subscription

Simple and flexible – all premium features at a glance

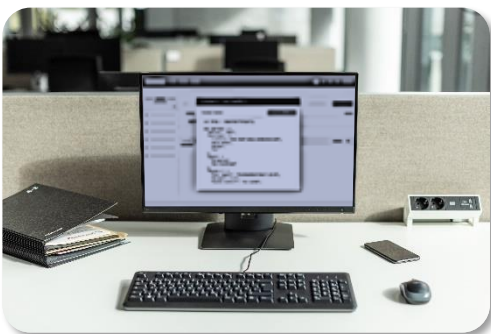

## Multiple groups

Expand your group function with multiple groups. Manage and keep an overview of your locations. Add resident charging station to groups for each location.

## Charging station management

Manage and monitor your charging stations at any time. The Webasto ChargeConnect web portal provides full remote control over your charging stations.

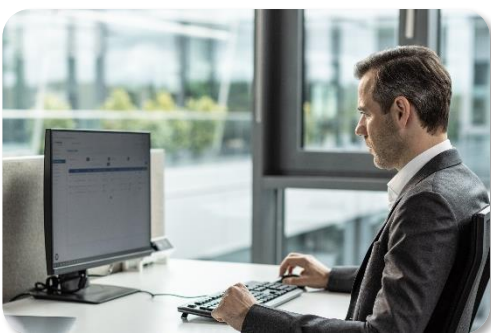

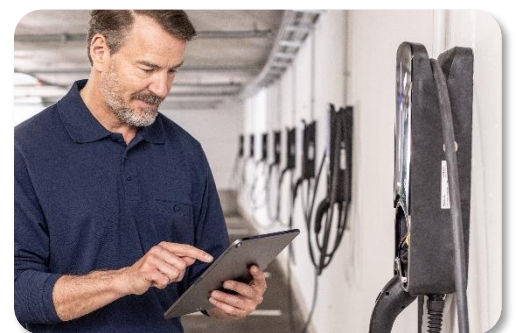

## Data integration into third-party systems

Webasto provides valuable data for your own business through a partner API. Connect Webasto ChargeConnect data to your own system in real time, extending your existing value proposition with the charging experience.

## Over-the-Air (OTA) firmware updates

Install firmware updates for your charging stations quickly and easily using remote operation. No on-site deployment at the charging station is required.

## Remote service

Webasto support has qualified staff to assist you if you have any trouble using the hardware or the cloud.

# Webasto ChargeConnect Subscription

Simple and flexible – all premium features at a glance

## Charging costs per group

You can set a charging tariff for each of your groups. Cost calculation supports your invoicing process and helps to continuously monitor costs.

## Exporting charging data

Export charging data any time. Set filters for time periods, charging stations, or RFID tags. You can also view exact charging data per user.

## Booking charging stations

Guarantee users the availability of a charging station, simultaneously avoiding charging station idle time. You can do all this using the reservation function.

## Vehicle driver logbook

The vehicle ID and current mileage are important key details for your fleet vehicles. The logbook feature enables you to add this information to every charging session.

## Guest access through vouchers

Provide your guests or visitors easy access to your charging stations using a QR code – No need to use an app! You can also limit each voucher in terms of energy consumption (kWh) and duration of use.

## Contact us

Let's get to know each other better: get in touch with our team. We are always here for you!

**[wcc.subscription@webasto.com](mailto:wcc.subscription@webasto.com)**

Our team will respond to you by the next business day.

We will discuss your requirements and find the perfect solution.

Let's successfully implement the transition to a Webasto Charge Connect subscription together.
